

# Privacy Policy

This privacy policy sets forth rules for collecting, processing and using personal data obtained from you by a self-service tool provided in the SaaS model and accessible at aniMoose.studio.

The aniMoose.studio platform is operated by 3w design team Bartosz Obermüller with its registered office in Toruń, 87-100, ul. Wrzosowa 2, VAT No. (NIP) 879-131-23-83.

We process personal data you provide to us in accordance with your permit and with legal requirements, including in particular the Personal Data Protection Act of 29 August 1997 (Journal of Laws No. 1997.133.883, as amended). We store your personal data on servers where the data is fully protected. The databases are accessible only to authorised employees of the Platform.

You can access your personal data for the purpose of its verification or modification and can request that the data is deleted. The Platform does not collect any data automatically, except for data gathered in cookies when the Website is used.

Cookies are small text files sent by the Platform and stored on your computer. Cookies contain certain information connected with your use of the Website and Application. Cookies are used by the Platform to operate the Website and ensure that you can have an access to interesting information. Cookies are also used during the buying process (e.g. to remember your steps).

Apart from cookies, the Platform may also collect data that is customarily collected by website administrators in logs or log files. Information contained in logs can include:

- your IP address,
- a type of your operating system,
- a type of your browser.

When you do shopping or registered with the Website, the Platform will collect the following personal data from you via a buying form:

- your e-mail.

The above data is given voluntarily, but it is necessary to do shopping via aniMoose.studio.

To finalise your order and send a response to your inquiry sent by e-mail, the Platform will use electronic mail or phone. When the order placed on the Website is finalised, the Platform will notify you of further progress by e-mail.
